

The ROC Emergency Telephone

The ROC Emergency Phone from Trans Data Management

Ruggedized Outdoor Communication (ROC): The vandal resistant and weather-proof design guarantees a highly reliable Emergency Telephone ideal for remote outdoor installations.

The ROC Telephone is able to handle emergency calls and be fully integrated in TDM's NIS communication platform. This offers additional functions such as automated display of CCTV images of incoming calls, regular monitoring and centralised configuration of ROC GSM-R Telephones.

Features

- Solar or local power
- Spring-loaded self closing door
- Robust waterproof design
- With or without dial key pad (15 keys)
- Self monitoring
- Remote configuration and supervision

Benefits

- Offers extra weather protection
- Long-lasting and resistant to damage
- Design options to suit application
- Provides regular status reports
- Carry out updates and maintenance without going to site
- Allows for installation in remote locations where power may be unavailable

APPLICATIONS:

- Railway environment: trackside, level crossings etc.
- Remote locations: GSM /GSM-R and solar powered versions allow for a wireless installation
- Roadside: various options for transferring voice and data communication over long distances
- Wherever there is no landline connection and when it would be prohibitively expensive to lay a cable
- A mobile emergency call facility and information point that can be put into operation at short notice

SPECIFICATION: ROC Emergency Phone

Dimensions (HxWxD)	210 x 320 x 120mm
Weight	6.6kg
Material	Robust aluminium alloy die-cast body
Colour	Yellow
Rating	IP65
Mounting	Wall or post mountable
Approvals	Network Rail PADS No: PA05/05070

AVAILABLE TECHNOLOGIES: ROC Emergency Phone

GSM
GSM-R (supports ASCI Features /EIRENE compliant)
VoIP
